

Google Docs in Glow

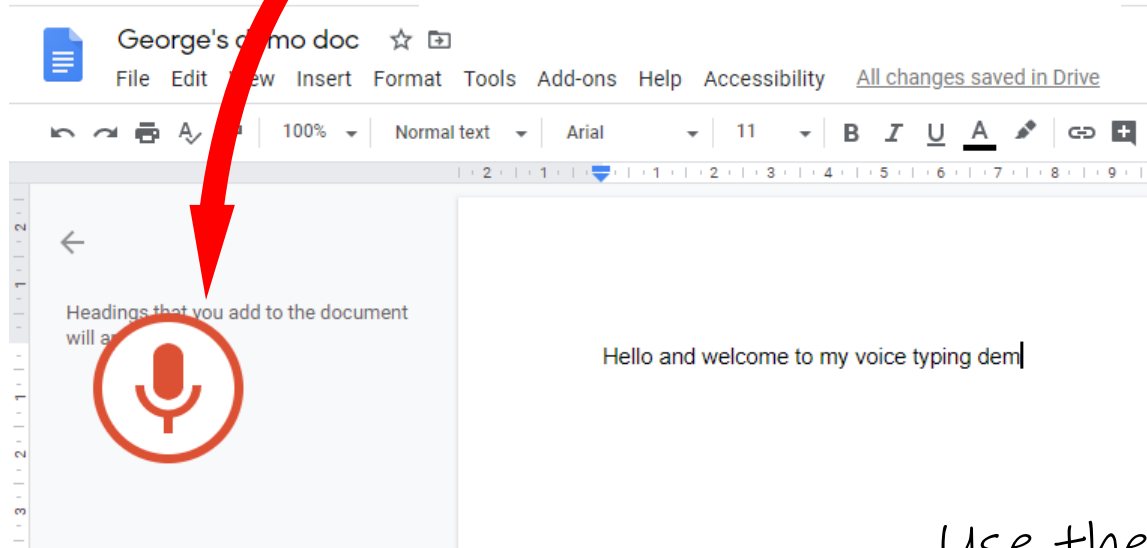

Give your Doc a **name** in the top-left of the screen

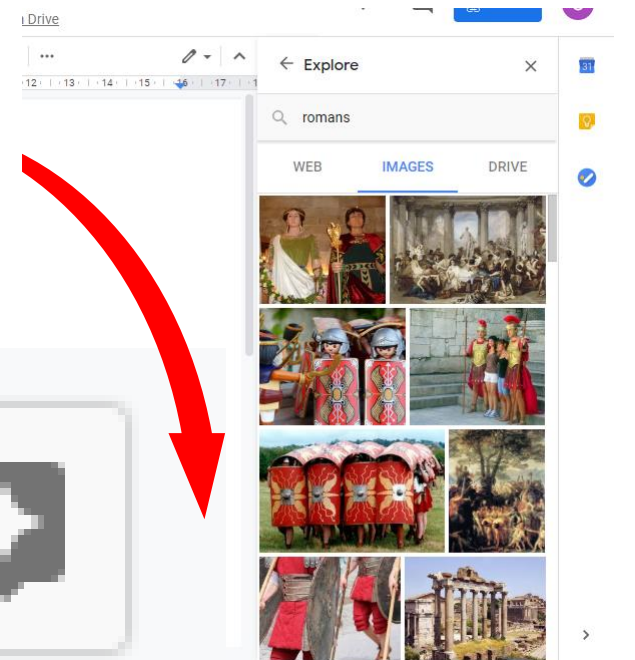

When you underline and **bold** a heading, Docs automatically creates a list of **headings**, allowing you to jump to sections in your Doc easily

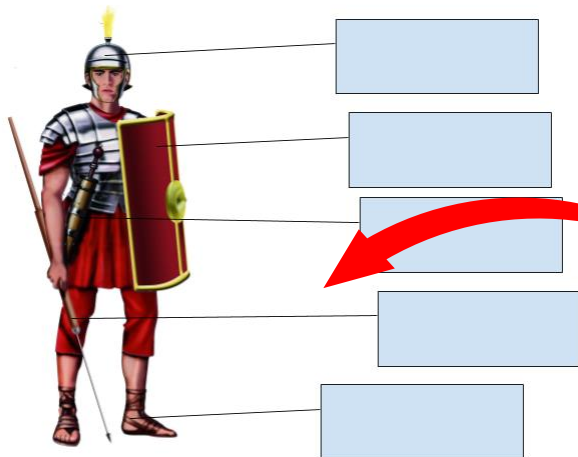

Go to Tools to turn on **Voice Typing** and talk to type in your Doc

Use the **Explore** button to quickly find relevant information and images on the web

Label the diagram of the Romansoldier below:

Insert **Drawings** to create interactive Docs for learners to complete
